## **MILESTONE #1**

Minimum Viable Product: Able to sign up, log in, create a travel group, invite other users to a group and upload photos to share within groups.

### **Final Week To do List! (3/2/2016)**

#### **UI + light functionality tweaks – *Daniel***

Create Group and Invite User buttons

Create picture buttons for creating a group and inviting a user

Create group example picture  the msn add friends image.

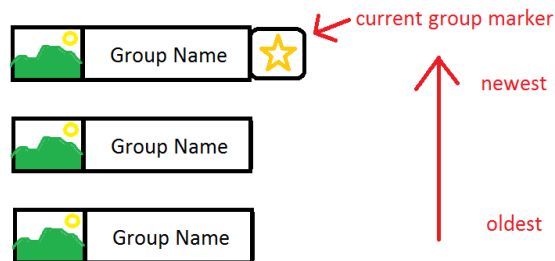

Invite Users button should have a + sign.

Change toolbar to have a Home button instead of grid button. Pressing home button while on home screen should activate grid view, but on any other page would take you back to the home screen. (Icon should be a house)

General shifting around and scaling of buttons to make them nicer.

#### **History Page – *Mohammad***

History page should have an album like layout

#### **Fix the geographical data – *Christian and Bryson***

#### **Download pictures with a long press and menu – *Kenan***

#### **Scenarios and Espresso tests – *Christopher***

#### **General Debugging – *All***

***Deadline: 3/9/2016***
